

# Globalstar Sat-Fi2™

Run your business and your life, manage emergencies and stay productive all with the convenience of connecting up to 8 personal smart devices to your own private satellite Wi-Fi network.

With the easy to use Sat-Fi2 app, continue managing your business even when cellular service is unavailable or unreliable with the ability to email, text, talk, access the web, check the weather, post to social, and share photos and files. With S.O.S. capabilities, you can communicate directly with GEOS, the International Emergency Response Coordination Center.
